We've created a new and exciting menu of project-based classes just for you! We hope you're inspired by our new projects; many of which are super easy once you get the hang of it! Learn a new technique and broaden your knowledge all while making new friends who share the same interests as you!

A note about our classes . . . most classes are \$35 plus the cost of materials. There are some exceptions to that and those are noted. Also, some classes require "homework" and those are noted as well. As always, we are happy to schedule private instruction around your schedule. Private classes are \$30 an hour and many people find those to be most beneficial when you make a "hit list" of what you want to learn. We're here to help and inspire you, so please, if you have any questions, please ask!
